SYED PATAN

B.Tech Computer Science and Engineering Student (Third Year)

Phone: 9989387263

CAREER SUMMARY:

Motivated third-year B.Tech Computer Science and Engineering student at Madanapalle Institute of Technology and Science (MITS), with a strong interest in software development and web technologies. Building practical skills in Java, HTML, CSS, JavaScript, and React through hands-on projects, while continuously strengthening problem-solving abilities. Seeking internship and entry-level opportunities to apply my skills, contribute to a team, and keep learning.

EDUCATION:

Madanapalle Institute of Technology and Science (MITS)
B.Tech – Computer Science and Engineering | 2024–2028 (In Progress)

RELEVANT PROJECTS:

Intelligent Online Coding Assessment Platform (OCAP) – LogicLabs
Academic / Internship Project

- Worked on the result-page component of an online coding assessment platform.
- Focused on presenting scores, percentages, pass/fail status, correct and incorrect answers, and performance summaries.
- Collaborated with a team developing candidate and recruiter features.

Web Development Practice Projects
Academic Practice

- Created beginner-friendly web pages using HTML, CSS, and JavaScript.
- Practiced DOM manipulation, button click events, input validation, and displaying list data.
- Learning React fundamentals, including components, props, events, and state.

TECHNICAL SKILLS:

- Programming: Java (beginner), JavaScript
- Web Technologies: HTML, CSS, React (learning)
- Tools: VS Code, Git, GitHub
- Core Skills: Problem-solving, teamwork, and willingness to learn

INTERESTS:

Web development, learning new technologies, solving programming problems, and studying religions.
